

TD Power Systems Ltd., as a leading generator manufacturer conducts all its operations in a manner that provides products and services to meet customer expectations, protects environment, and ensures health and safety needs of employees and other interested parties. It is the strategic decision of TD Power systems to implement and integrate ISO 9001:2015, ISO 14001:2015 and BS ISO 45001: 2018 in order to:

- 1 Provide quality products and Services on time and every time to customers through continual improvement in every process and enhance customer satisfaction.
- 2 Ensure safety and Health of our employees and associated stakeholders through effective health and safety programs
- 3 Comply with all applicable Environment, Health and Safety obligations.
- 4 Improve Safety, Health & Environment (SHE) performance through effective communication and training.
- 5 Ensure “SHE” responsibility amongst all the employees in their practices, promote and value their involvement in achieving the goals of this policy.
- 6 Fix the responsibility of “SHE” with the contractors, Sub-Contractors, Transporters and all other external providers operating with the TDPS.
- 7 Integrate Health & Safety in all decision-making processes of the company including those dealing with purchase of plant equipment, machinery & materials as well as selection and placement of personnel.

TDPS will adopt and institutionalize risk based thinking methodology in all its processes and activities with appropriate risk mitigation plan and focus on opportunities to remain globally competitive.
