Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

Sr. No.	Material Issue Identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (indicate positive or negative implications)
1	Energy	Opportunity	With growing demand for efficient turbines and generators, product innovation and offering advanced solutions that cater to the expanding energy market can help us in positioning ourselves as a leader in sustainable energy technology.	-	Positive
2	Emissions	Risk	With our operations being energy intensive, emissions are bound to be significant. Investors are now becoming environmentally conscious, and therefore committing to reduce emissions can lead to a better progress towards sustainable efforts.	We have started to comprehensively account for our GHG emissions across Scope 1, 2 and have also identified relevant categories to report on Scope 3. In the subsequent years, we shall monitor our emissions intensity and set appropriate company wide targets to reduce them.	Negative
3	Occupational Health & Safety	Risk	The nature of our operations is risky and require the utmost precision on the shopfloor. Failure to comply with safety protocols can result in workplace accidents and hazards, causing production delays and increased employee absenteeism.	We maintain a Hazard Identification and Risk Assessment (HIRA) register that provides detailed information on safety activities, potential hazards, and associated risks.	Negative

ANNEXURE - 11 (BRSR CONTD.)

				We conduct regular safety meetings under the supervision of the safety committee. These meetings aim to identify workplace hazards, assess exposure to risks, and report any incidents that occur.	
4	Supply Chain	Opportunity	We cater to a diverse array of suppliers for raw materials being used in our products. Supplier diversity can enhance our sustainability efforts within our value chain by carrying out routine inspections and checks on environmental and social parameters and ensuring adherence to relevant regulations.	-	Positive
5	Product Quality & Safety	Opportunity	By adhering to relevant norms and regulations during production, we can ensure the product's safety and quality, meeting customer requirements effectively.		Positive

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Response: Yes, the Company is actively committed to reducing greenhouse gases emission. This includes, implementing various strategies into operations such as utilizing advanced technologies in manufacturing, optimizing energy use in our workspace and promoting responsible electricity consumption. As a part of our CSR commitments, we donated solar panel systems to government schools, promoting renewal energy and reducing their reliance on fossil fuels. This results in a reduction of emissions and combats climate change.

The Company will continue to make efforts in this area, which includes;

1. Setting a goal to install Solar rooftops at Unit-2 and Unit-3 of the Company in the year 2025-26.
2. Reducing transportation related emission by sourcing materials locally where feasible.
3. Exploring and developing supply chain emission reductions projects.
4. Encouraging the use of recycled materials within the supply chain, where feasible, to lower the overall carbon footprint.
5. Focusing the business towards renewable energy sources such as Hydro, Geothermal, Biomass, Waste to Energy, Waste Heat Recovery, Gas based power plants and Wind to minimize our environmental footprint.

Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	-	-	-
Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)			No

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Response: Not Applicable.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	CETP, Rain Harvesting	We utilized wastewater treated by the Common Effluent Treatment Plant (CETP) for gardening purposes and recharged the groundwater by channeling rainwater into bore wells, thereby enhancing our groundwater resources.	The outcomes of these initiatives were quite negligible to quantify.
2.	LED Lightings, Exciter Frame	By replacing conventional or CFL lamps with LED lights, we achieved a 50% reduction in power consumption.	
3.	Exciter frame heating insertion eliminated	The exciter frames were subjected to a heating insertion process before completion. However, we have now eliminated this heating process entirely through cold pressing, resulting in significant power savings and the elimination of emissions.	
4.	OXY Hydro gas generator implemented instead of oxy acetylene gas brazing process	We previously utilized oxy-acetylene gas for brazing purposes. However, we have transitioned to using an oxy-hydrogen generator, resulting in reduced emissions, heat generation, and overall cost. On average, this shift has led to a 50% reduction in our operational expenses compared to the oxy-acetylene process.	

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Response: Yes, we at TDPS have developed a comprehensive business continuity and disaster management plan, which encompasses three key business areas: manufacturing activities, data and IT infrastructure, and outsourced process materials. Each area within the plan identifies potential disaster scenarios, categorized by their probability of occurrence (ranging from 'Low' to 'Medium') and severity (ranging from 'Low' to 'Very High').

ANNEXURE - 11 (BRSR CONTD.)

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

Response: The release of carbon emissions into the environment has a significant impact. Considering this, we at TDPS have initiated regular interactive sessions with our suppliers to educate and provide awareness on emission reduction strategies and techniques.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.
